SUBJECT: Misuse of Life Sciences Research - Morocco

REF: STATE 56179

¶1. On April 25, post delivered reftel demarche and questions regarding misuse of life sciences to Dr. Khalid Tamsamani, National Coordinator of Materials Science at the Department of Scientific Research at the Moroccan Ministry of Higher Education. Tamsamani provided responses and point of contact information (see para 3), as requested.

¶2. Tamsamani confirmed that Morocco is a signatory to the 2000 Cartagena Protocol on the Prevention of Biological Risks and reported that the Government of Morocco (GOM) is currently engaged in the ratification process. The Moroccan government is establishing an inter-ministerial "National Biosecurity Committee" whose remit and plan of action was set by the Prime Minister. The Ministry of Environment is currently conducting a study for the establishment of a National Biosecurity Committee and related personnel. Tamsamani told emboffs that Morocco has no evidence of any type of biological threat nor of dual-use bio-scientific research "that do not conform with international ethics." Moroccan officials would be very interested in participating in discussions on the possible dual-use of bio-scientific research and would like to receive information on the American initiatives on this subject.

¶3. Tamsamani identified two GOM points of contact and one non-governmental point of contact:

Mr. Zayer El Majid
Director
Directorate of Scientific Research and Technologies
Moroccan Ministry of Higher Education
29 Avenue d'Alger
Hassan B.P.
4500-Rabat
Tel: [212] (37) 20-24-12
Fax: [212] (37) 72-22
